

a Report, or measure one more concentration

11,350 + 339 + 430 = 12,119 wells

three concentrations + fourth + completion · 28,080 if every series were completed

b Wells and reports by strategy

c Closed loop – three-point rule

○ vs measured-only

● vs AnchorBoost

d Fewer wrong reports at the same wells

— AnchorBoost

--- Interpolation

— Measured-only

○ Calibrated working point

◆ Closed loop
